PAPER CONFIRMS IMBERT'S RECORD AS CIA AGENT

Havana Domestic Television Service in Spanish 1700 GMT 1 July 1965--F

(Mario Kuchilan commentary)

(Excerpt) Tony Imbert was aboard the Boxer from 30 April to 7 May, when he emerged as president of the reconstruction junta in the State Department formula. He has followed the Pentagon's orders completely, as is demonstrated by the bodies being found every day. When we said that Imbert was a CIA agent, many people thought the statement an exaggeration, but the HERALD TRIBUNE now reveals that it was Imbert, with the agreement of Yankee Consul Dearborn and consular official and CIA man John Barfield, who executed Trujillo, an action of which he boasts.
